Quality Policy

Tomoe Valve Ltd is a global leader in the production of high quality and technically advanced butterfly valves and control systems. Tomoe Valve Ltd products can be found operating in a wide range of industries worldwide including oil & gas, petrochemical, marine, water treatment, vehicle manufacture and power generation.

Tomoe's core target is to create stakeholder value through customer satisfaction and motivated and competent personal.

Our target is achieved by adopting a Quality Management System which meets the requirements of ISO 9001:2015 and which satisfies all statutory and legal requirements, including PED 2014/68/EU & Pressure Equipment (Safety) Regulations 2016.

Tomoe's business planning and results monitoring define the objectives and key performance indicators to monitor and continually improve including financial, human resource, sustainability, regulatory compliance and occupational health & safety.

Adhering to the requirements of our Quality Management System is a mandatory requirement for all employees and as Managing Director I am fully committed to ensuring the implementation of and continual improvement of this Quality Management System and all employees are asked to fully participate.

A handwritten signature in blue ink that reads 'Ikutaro Yamamoto'.
